Bianca Tirsin Miss Universe Romania 2020

Beauty contests and Blogger in her spare time. Her experience in the world of beauty contests consists of 12 Misses win, of which national and 2 international. Ms. Tirsin managed to make her country proud to win two years in a row an international title in the top 5, being the only one in Europe in the top and writing history for Romania.

I am a student at the Faculty of Economics and Business Administration. My journey started when I was 14 years old, when I wanted to be financially independent. I became a business promoter for cosmetic products like the Nivea, Dove, Vichy etc. I've always enjoyed socializing, interacting with people, helping them choose the best decisions in case products. My destiny was meant to be seen by a fashion designer when I was at the job boom, and to be invited to participate in the beauty contests.

I have met many situations with many obstacles in my path, with the help of my loved ones I managed to get over them and moved on. It's not easy in this career, there are many demands, hopes, and a great responsibility to represent your country at international level.

Starting to participate from the age of 18, the minimum age of such contests, I felt a slight pressure but a satisfaction for other competitors who thought I was small and that I am not yet prepared for a title of Miss. For other competitors, I guess they weren't worried. I was very glad that I managed to show everyone that Romania has wonderful girls and that even if I was 18, I earned my seat in top 5.

These weren't the only obstacles I've been through. I remember that at my first contest I did not have much support. Where there is no national interest, the preparation must be organized by yourself.

My dream was not the one to become an idol of beauty and the word in the world of beauty. My dream was to fly and be able to watch clouds every day, and travel and see everyone else. From becoming a pilot, I became the pilot of my life and the people around me that I inspire.

I have plans for the future to expand my business with my blog and open an Academy for Ladies. I wish that the family I'm going to shape in the future will have a healthy life, as I want to open natural stores of bio products in which the goods will be from the garden.

I like to be busy with activities that are part of my passions: modeling, fashion, make-up, music, and of course the world of beauty.

I also launched the MissBianca.net blog. It is a blog in which I tell about my life. The motto is: "The life of a Miss". Through the blog, I try to inspire as many people as I can.

save something behind them in this life.

the shadows, are a yam that doesn't have much faith in them, though my blog I want to change a little mindset, be more open, + to shine, Queen!

see the world this. This generation can change everything. forget to follow me :)

What Is Social Media Marketing?

Social Media Marketing (SMM) is a way of marketing in which we use social media platforms to connect with our audience. This involves the posting of great and engaging content on social media profiles that will attract users. Major social media platforms include Facebook, Instagram, Twitter, Pinterest, LinkedIn, etc. As a huge population around the world uses these platforms, we can drive leads and generate engagement for our benefit and growth.

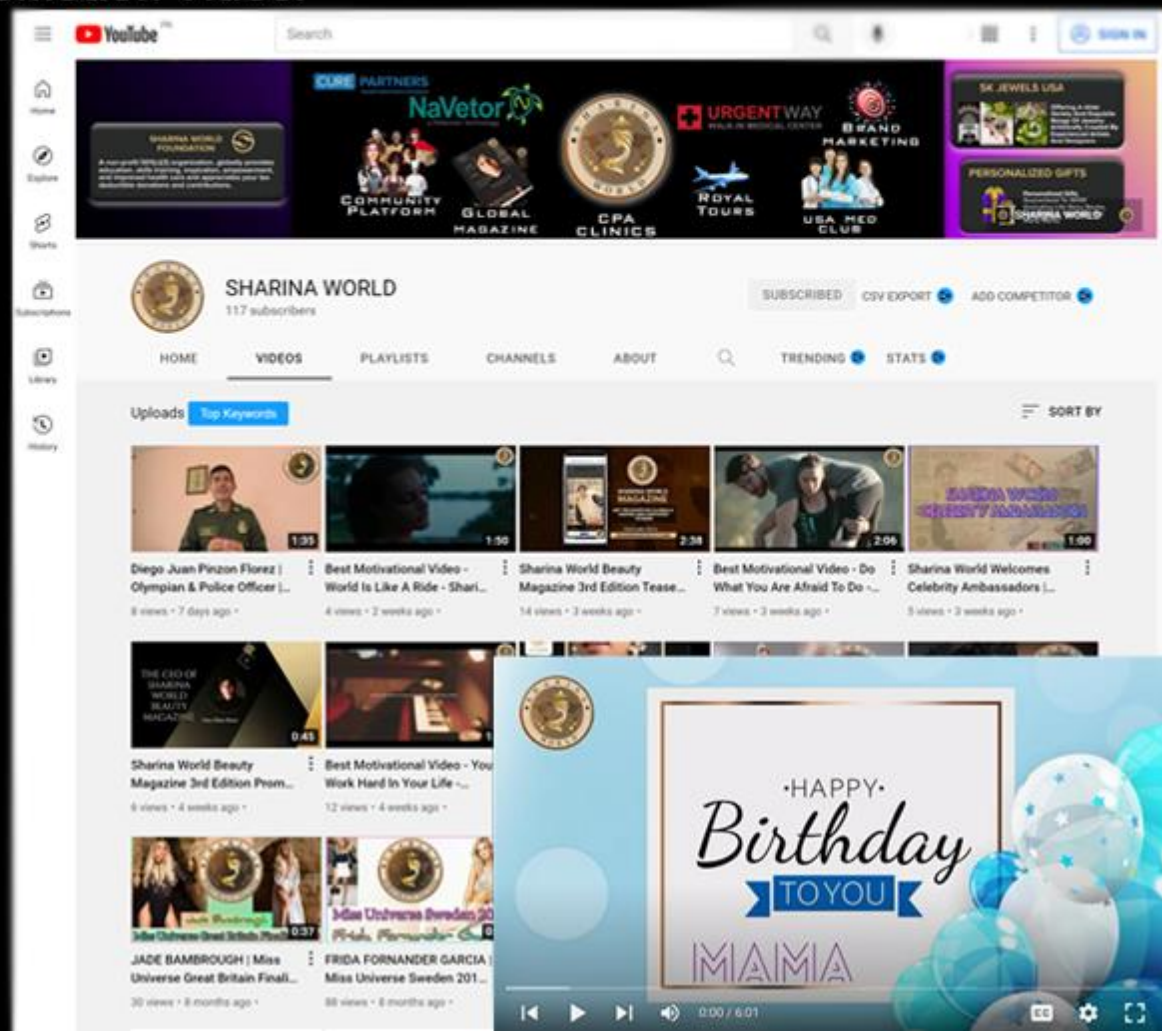

SMM provides opportunities to target the interested audience and build strong and trusted relationships with them. You need to engage with them, build the content that can strongly deliver your message, drive traffic to your website, and generate sales, and increase the authority of your brand. Social Media Marketing is the most diverse and cost-effective method to increase the visibility of any brand.

The United States of America (U.S.A. or USA), is a country located in North America. It consists of 50 states, a federal district, five major unincorporated territories, 326 Indian reservations, and some minor possessions. Total area is about 3.8 million square miles (9.8 million square kilometers). The United States shares significant land borders with Canada to the north and Mexico to the south as well as limited maritime borders with the Bahamas, Cuba, and Russia. With a population of more than 331 million people, it is the third most populous country in the world. The national capital is Washington, D.C. and the most populous city is New York City.

The United States is a highly developed country, accounts for approximately a quarter of global GDP, and is the world's largest economy by GDP at market exchange rates. By value, the United States is the world's largest importer and second-largest exporter of goods. Although its population is only 4.2% of the world's total, it holds 29.4% of the total wealth in the world, the largest share held by any country. Making up more than a third of global military spending, it is the foremost military power in the world and internationally a leading political, cultural, and scientific force.
